pdf_text.pdf - generated golden fixture, page 1 of 3.
This page carries the page-unique sentinel PDFTEXT_SENTINEL_P1_KZXQ.
The text layer is real: pypdfium2 must extract every line here
without OCR, captioning, or a layout model.

pdf_text.pdf - generated golden fixture, page 2 of 3.
This page carries the page-unique sentinel PDFTEXT_SENTINEL_P2_VWYM.
Page attribution must survive chunking: a retrieval hit for the
sentinel above must cite page 2 and only page 2.

pdf_text.pdf - generated golden fixture, page 3 of 3.
This page carries the page-unique sentinel PDFTEXT_SENTINEL_P3_HJRN.
End of fixture. Three pages, three sentinels, no images.
